MICROSCOPY

THE SCOPE ON A HIGHER LEVEL

 **EXCLUSIVE WORKSHOP**
WITH DR. GLENN VAN AS

30th June | 1st July 2017
The Hague | Netherlands

WELCOME!

LEARN FROM THE EXPERT!

Dr. Glenn van As

Dr. van As graduated in 1987 from the University of British Columbia. He has worked exclusively at the Dental Microscope in his fulltime private general practice in North Vancouver, B.C., Canada since 1997.

Dr. van As is a co-founder and past president of A.M.E.D. He has been acknowledged as one of the leader in the accumulation of videography and digital photography captured with the microscope.

LEARNING OBJECTIVES

In this two-day fully interactive lecture/hands-on workshop attendees will gain a better understanding of how to use the microscope for all procedures in all areas of the mouth.

Dental microscope users are taught to achieve greater proficiency through successfully integrating the technology into everyday use.

Highlights

- Learn from one of the leading dental microscope experts!
- Real time treatment!
- Work directly with individual dental microscope to practice in your own way!

COURSE OUTLINE

DAY 1

Friday, 30th June 2017 (9 a.m.–5 p.m.)

- Discuss the advantages of using the operating microscope including improvements in precision, ergonomics, communication and documentation.
- Work on the mannequins preparing first teeth in the upper anterior sextant (veneer and crown preps) and in the posterior maxilla.
- Learn the 5 tricks to setting up the microscope for ideal viewing in all areas of the mouth and clinical tips to shorten the learning curve.

DAY 2

Saturday, 1st July 2017 (9 a.m.–5 p.m.)

- Review of the material from day 1.
- Continue to work in hands-on workshops finishing the upper posterior preparations.
- The lower anterior sextant followed by the lower posterior teeth.
- Learn how to document clinical procedures with the dental microscope and integrate the digital microphotography and videography.
- Discuss the ergonomics of the microscope centered practice and the best operator design to optimize daily microscope use.

The course language is English.
